Hi Naum:

Please find attached the email I sent, together with the drawings of the Non-ITAR lenses, on 3/18/13.

These are the part numbers I quoted you on 5/22/13.

If you are available at 1PM EST we should have a discussion.

Let me know if that time works for you.

Thank you.

Rgds,

Devin

Subject: Lens prints

Hi Naum:

I hope you are well.

Our compliance guy told me that if we develop a brand new design for a weapon sight that that falls under ITAR restrictions.

As a Non-ITAR option, we can supply you with a 100, 50 and 35mm developed for a security camera application.

Take a look at the attached lens prints(50mm & 100mm) to see if they will work for you.

If so, I will forward the prints for the 35 as well.

Rgds,

Devin

Revised quote

Naum Morgovsky <naummorgovsky@yahoo.com> 05/23/13 at 12:08 PM

To Devin Standard

Devin,

The PO is coming up today from ATN. None lenses are needed in June.

Important urgent questions:
1) Do you have in stock non-ITAR lenses?
2) Are any dimensions and distances pertaining to non-ITAR lenses any different than those pertaining to the ITAR ones we previously bought from you? This is crucially important because we are ordering 600 sets of parts for lens housings with internal focusing and need to know for sure what design changes, if any, need to be made in order to use the non-ITAR lenses.

Regards, Naum

Naum:
How many lenses do you need during the month of June?
Anticipating your PO, we need to ensure we have sufficient material on hand.

Hi Devin,

We greatly appreciate your cooperation.
Is it acceptable if the PO is issued by ATN and be subject to the ATN's credit terms with Janos?

Best wishes, Naum
